8. Is Data processed outside the European Union?

For the processing of your data, we also use service providers located in third countries outside the European Union. We have therefore taken special measures to ensure that your data is processed in the third countries as securely as within the European Union.

If we use third-country service providers, we conclude the data protection contract (standard data protection clauses) provided by the Commission of the European Union for the processing of personal data in third countries with them. This provides appropriate safeguards for the protection of your data with service providers in the third country.

Some of our providers are headquartered in the USA. Due to the Data Privacy Framework in place between the USA and the EU since 2023, it has been possible since its entry into force for these companies to be certified by US data protection authorities and thus confirm their level of data protection. Some of our service providers have already been certified.

You can request information about the companies already certified or a copy of the appropriate guarantees using the contact details above.
